

Salted Hides and Skins Export to Israel

- The facility must be inspected by APHIS Veterinary Services (VS) a minimum of once annually as a prerequisite to certificate endorsement.
- Species of origin must be identified in the Identification Section of the certificate.
- Source animals must have been subjected to slaughter inspection at Federal or State approved slaughter establishments.
- Only the hides and skins of animals that passed ante-mortem inspection and received post-mortem inspection are eligible for export.
- All non-applicable statements in statement #3 should be lined through.
- The certificate should be printed on the letterhead stationery of the endorsing VS Area Office, and the official seal must be applied following endorsement.
